COVID-19 SUMMARY

Coronavirus Disease 2019 (COVID-19)

On 03/02/20 at 0700 hours, the Cal OES State Operations Center (SOC) activated in support of the California Department of Public Health (CDPH) Medical Health Coordination Center's (MHCC) statewide response to COVID-19. Cal OES will continue to provide resource coordination for the COVID-19 event, as well as situation status reporting and advance planning across multiple areas.

SMARTER Plan

On 02/17/22, Governor Newsom unveiled the "[California SMARTER Plan: The Next Phase of California's COVID-19 Response](#)". The plan emphasizes continued readiness, awareness and flexibility and helps ensure California can maintain its focus on communities that continue to be disproportionately impacted and stay prepared to swiftly and effectively respond to emerging COVID-19 variants and changing conditions.

CDPH Statewide Travel Advisory

- For more information: [CDC Travel Guidelines](#)

Confirmed California COVID-19 Cases - Per California Department of Public Health Tracking COVID-19 as of 05/04/22 at 1630 hours:

Weather Key Points

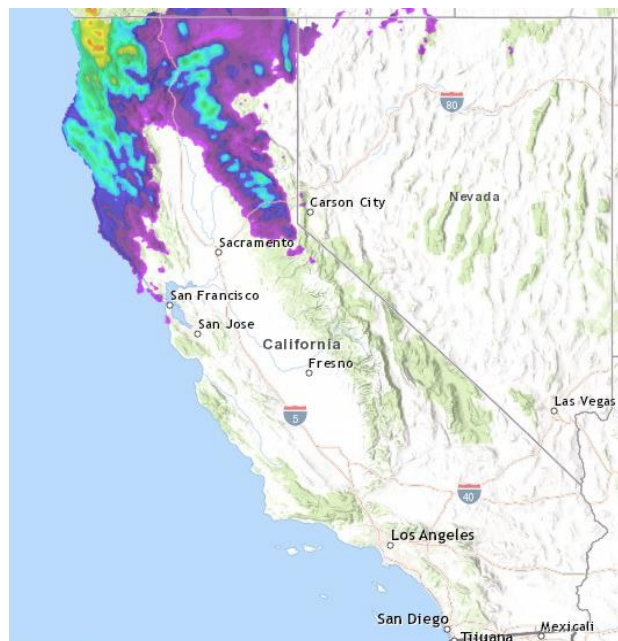

Regional Operations Center

Western Region

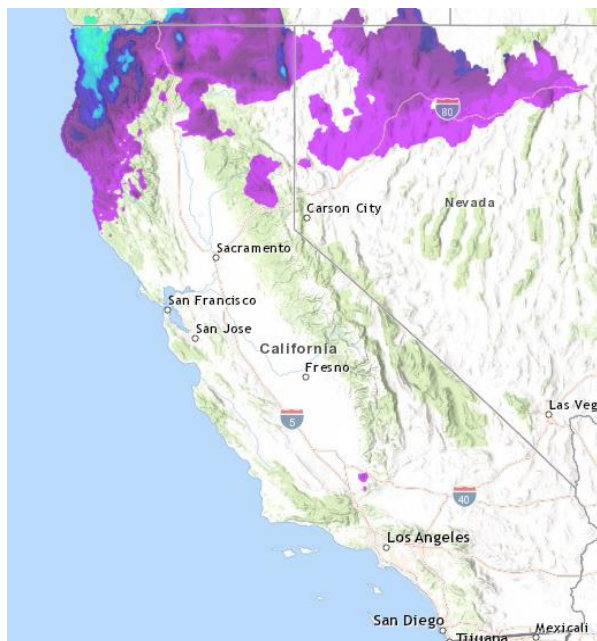

Friday, May 6

- Strong and gusty southwest winds Friday, with gusts of 40 to locally 55+ mph. Additional gusty conditions are also expected on Saturday and Sunday.
 - Stronger winds expected, and potential for areas of blowing dust, over the northern Mojave Desert and southern California mountains Friday through Monday
- Warm temperatures still expected through Saturday over the interior, with readings in the 90s across the Central Valley and warming into the lower triple digits for the southern deserts
 - Minor to locally moderate heat risk impacts are expected most afternoons
- Some minor travel impacts possible this weekend over the far northern mountain passes, with periods of rain and mountain snow possible across northern California through early next week
 - Snow levels will be gradually lowering into the weekend, ending up around 2,500 feet for far northern California by Sunday with accumulations up to 6 inches across the northern coastal mountains
 - Isolated thunderstorms with locally heavier precipitation are possible Sunday and Monday
 - Otherwise, dry conditions are expected across central and southern California
- Much cooler temperatures will return Sunday and into early next week for the majority of the state

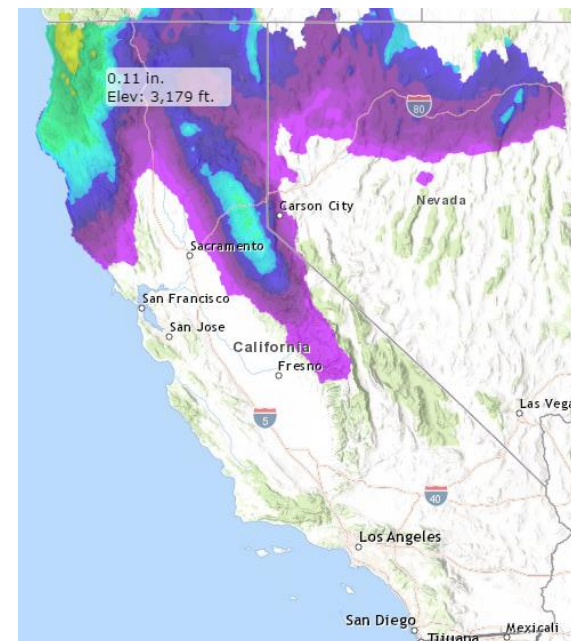

Precipitation Forecast

Friday

Saturday

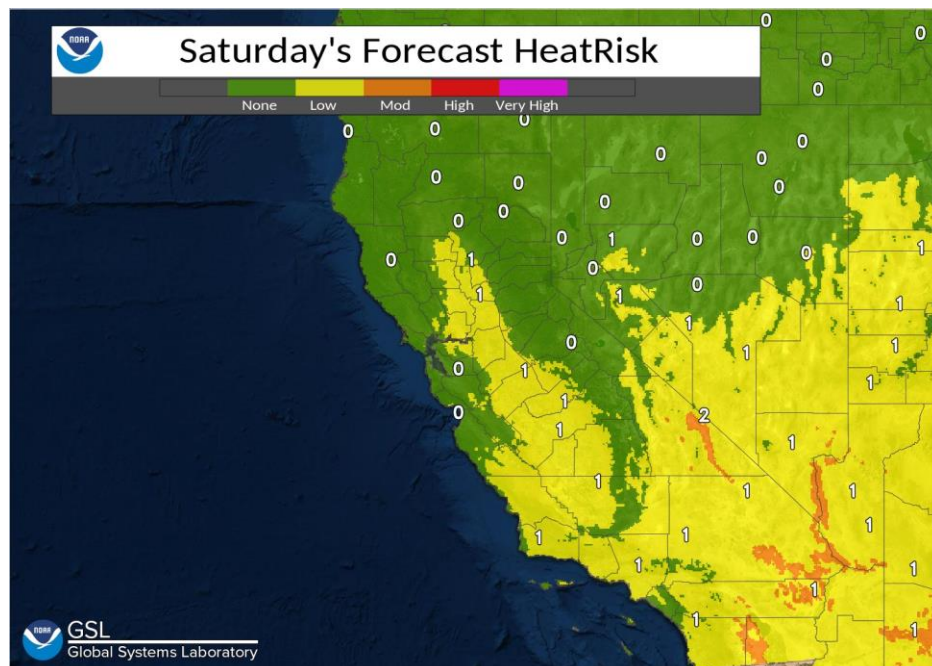

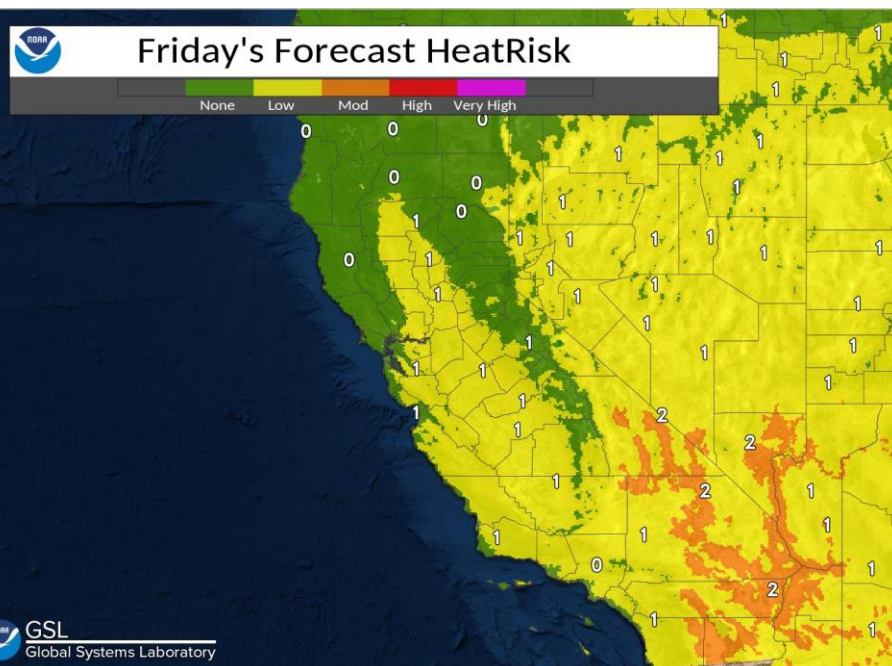

Sunday

Note: Forecast precipitation amounts are an average for any particular location. Thunderstorms may produce locally higher rainfall amounts.

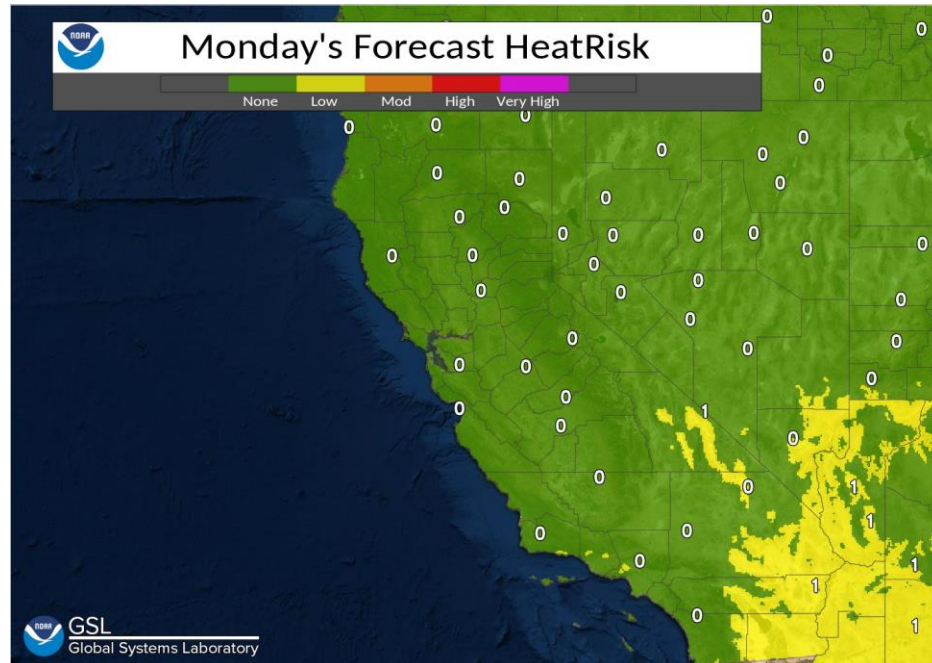

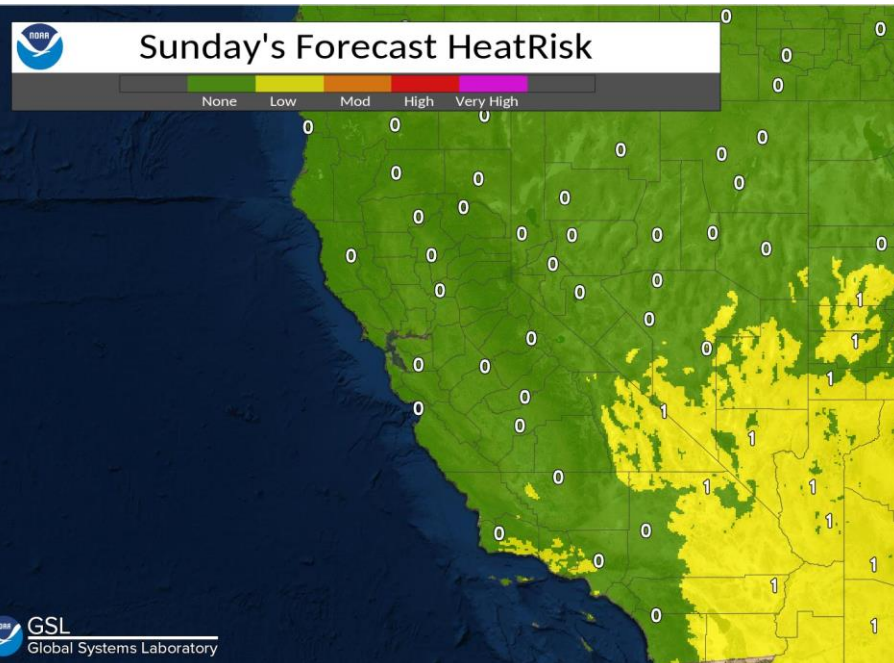

Precipitation (inches)

Green	0	No Elevated Risk
Yellow	1	Low Risk for those extremely sensitive to heat, especially those without effective cooling and/or adequate hydration
Orange	2	Moderate Risk for those who are sensitive to heat, especially those without effective cooling and/or adequate hydration

Red	3	High Risk for much of the population, especially those who are heat sensitive and those without effective cooling and/or adequate hydration
Magenta	4	Very High Risk for entire population due to long duration heat, with little to no relief overnight

Green	0	No Elevated Risk
Yellow	1	Low Risk for those extremely sensitive to heat, especially those without effective cooling and/or adequate hydration
Orange	2	Moderate Risk for those who are sensitive to heat, especially those without effective cooling and/or adequate hydration

Red	3	High Risk for much of the population, especially those who are heat sensitive and those without effective cooling and/or adequate hydration
Magenta	4	Very High Risk for entire population due to long duration heat, with little to no relief overnight

Weather Outlook (6-14 Days)

Regional Operations Center

Western Region

Friday, May 6

6-10 Day Outlook (May 11 - May 15)

Temperatures

- Below normal temperatures favored statewide.

Precipitation

- Near normal precipitation is favored for much of the state, with only a slight leaning of the odds toward below normal for southern Inland Region, and slight leaning of the odds toward above normal in far northeast CA.

8-14 Day Outlook (May 13 – May 19)

Temperatures

- Near normal temperatures are favored statewide.

Precipitation

- Below normal precipitation is favored for much of the state, with near normal precipitation favored for far southern California, and northern portions of Coastal Region.

Impact Level Definition

1. **Impactful weather is not expected.**
2. **Potential threat to lives and property if no/incorrect actions are taken.**
 - a. Localized impacts on commerce possible.
 - b. Includes events that occur frequently.
3. **Potential threat to lives and property if no/incorrect actions are taken.**
 - a. Impacts on commerce possible.
 - b. Includes events that occur a few times per year.
4. **Actions likely needed to save lives and/or property.**
 - a. Significant impacts to commerce possible.
 - b. Includes events that occur infrequently.
5. **Actions required to save lives and/or property.**
 - a. Significant and extended impacts to commerce.
 - b. Includes exceptionally rare events.
